Triple Point VCT 2011 plc ("the Company") is a Venture Capital Trust ("VCT"). The Investment Manager is Triple Point Investment Management LLP ("TPIM"). The Company was incorporated in July 2010 and raised £20.3million gross when its offer for subscription closed on 28 April 2011.

I am writing to you to present the Company's unaudited Interim Financial Report for the 6 months ended 31 August 2012.

Results

The offer for subscription for shares closed on 28 April 2011 with subscriptions having been received for 20,404,869 shares. Net share proceeds were £19.3million.

We are pleased to announce that during the period the Company secured its VCT qualifying status by satisfying the test of being 70% invested in VCT qualifying investments. Qualifying and non-qualifying unquoted investments represent 99% of net assets. The Board is pleased that the Company's investment portfolio has been constructed within the year since the offer closed, and two years ahead of the target date outlined in its investment strategy.

In selecting its qualifying investments the Company has been able to take advantage of a number of attractive investment opportunities. The portfolio comprises investments in the renewable energy sector and cinema digitisation, further details of which are included in the Investment Managers Review.

More information on the Company's investment portfolio is given in the Investment Manager's Review.

During the period the Company made a profit of 0.20p per share. At 31 August 2012 the net asset value per share stood at 93.38p.

Risks

The Board believes that the principal risks facing the Company are:

- investment risk associated with the VCT's portfolio of unquoted investments;
- failure to maintain approval as a qualifying VCT.

The Board believes these risks are manageable and, with the Investment Manager, continues to work to minimise either the likelihood or potential impact of these risks within the scope of the Company's established investment strategy. Further details of how these risks are managed are described within the Directors' Report.

Outlook

Despite the unpredictability of the short-term economic prospects, having secured its VCT qualifying portfolio and status, the Board is confident in its outlook and believes the Company is well placed to deliver returns to shareholders over the longer term.

Dividend

On 17 October 2012 the Board resolved to pay a first dividend of £750,900 (3.68p per share).

If you have any queries or comments, please do not hesitate to telephone Triple Point Investment Management LLP on 020 7201 8989.

Unaudited Interim Financial Report / Investment Manager's Review

For the 6 months ended 31 August 2012

We are pleased to report that during the period the Company continued to build its portfolio of VCT qualifying investments, investing a net £2.6million, so that as at 31 August 2012 qualifying investments represented 82% of net assets. This investment programme means that the Company has satisfied the requirement of being 70% invested in qualifying investments two years ahead of the required date.

The portfolio of qualifying investments is split between 20 companies across three sectors: cinema digitisation; hydro project management; and renewable electricity generation from solar PV, anaerobic digestion and landfill gas.

Each of these investments meets Triple Point's investment criteria, with projected revenues generated by good quality customers and the potential for steady returns. Investments in each sector have been made with the benefit of rigorous selection criteria, including extensive due diligence and expert technical assessment.

Sector Analysis

The investment portfolio can be analysed as follows:

Industry Sector	Cinema Digitisation	Hydro Project Management	Electricity Generation			Finance	Total Unquoted Investments

VCT PORTFOLIO REVIEW

Solar PV

The investments in companies that own roof-mounted residential solar PV panels continue to provide steady cash flows. Over the past six months, the Government has announced further changes to the Feed-in Tariff regime for solar. However, as the Feed-in Tariff is a 'grandfathered' scheme, all existing solar installations, including those in which your Company has invested, remain unaffected.

Anaerobic Digestion

Anaerobic Digestion (AD) is an established technology used to generate electricity from the production of biogas through the biological treatment of organic materials using naturally occurring organisms. Within the portfolio are two investments in small enterprises running projects to generate electricity from farm-based AD. The projects are under way with the first of the projects building up to full electricity output and both are energised and connected into the National Grid. The equipment used by these AD businesses is supplied by one of Europe's leading suppliers, EnviTec Biogas.

Cinema Digitisation

The businesses in the portfolio that deploy, maintain and operate digital equipment in cinemas in the UK and Continental Europe continue to perform in line with their objectives. Digital cinema projection conversion is paid for under the globally recognised Virtual Print Fee model, through which film studios pay for the cost of the deployment over a number of years. The majority of the revenues come from the six major investment grade Hollywood Studios. Film booking rates are significantly ahead of the base line projections which has built further headroom into the project. Looking ahead seven of the top ten films of 2012 are expected in the second half of the year including Skyfall the new Bond film and Hobbit.

Landfill Gas

Landfill gas is recovered by drilling a series of wells into the waste in a grid pattern across a capped landfill site. The gas then powers generators and the electricity is exported to the Grid. The Company's portfolio contains two investments working on projects to generate electricity from landfill gas. The first of these investments is due to start generating electricity and be exporting to the Grid in January 2013.

Hydro Project Management

The Company also has an investment in Highland Hydro Services Limited which manages the planning process and environmental impact studies for a portfolio of new small-scale hydro-electric power installations in Scotland. At present all applications are proceeding to plan, with the first expected to be submitted shortly and the remainder due during the first half of 2013. The business is currently in discussions to secure an option on two additional sites.

Finance

The Company also invested £3.2 million into Broadpoint Limited, a finance company which provides short and medium term funding to businesses in the telecoms, cinema and renewable energy sectors.

Outlook

With the VCT qualifying portfolio now in place, our focus is on managing and monitoring the performance of the businesses in which the Company has invested. Although the economic outlook continues to be uncertain, we believe the Company's investment portfolio is well placed to deliver stable performance.

Unaudited Interim Financial Report / Directors' Responsibility Statement

For the 6 months ended 31 August 2012

The Directors have chosen to prepare the Interim Financial Report for the Company in accordance with International Financial Reporting Standards ("IFRS").

In preparing the Interim Financial Report for the 6 month period to 31 August 2012, the Directors confirm that to the best of their knowledge:

- a) the Interim Financial Report has been prepared in accordance with International Accounting Standard IAS34, "Interim Financial Reporting" issued by the International Accounting Standards Board;
- b) the Interim Financial Report includes a fair review of important events during the period and their effect on the Financial Statements and a description of principal risks and uncertainties for the remainder of the accounting period;
- c) the Interim Financial Report gives a true and fair view in accordance with IFRS of the assets, liabilities, financial position and of the results of the Company for the period and complies with IFRS and the Companies Act 2006;
- d) the Interim Financial Report includes a fair review of related party transactions and changes therein. Other than detailed in note 14 there are no related party transactions; and
- e) the Directors believe that the Company has sufficient financial resources to manage its business risks in the current uncertain economic outlook.

The Directors have reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements.

This Interim Financial Report has not been audited or reviewed by the auditors.
