Risk warning

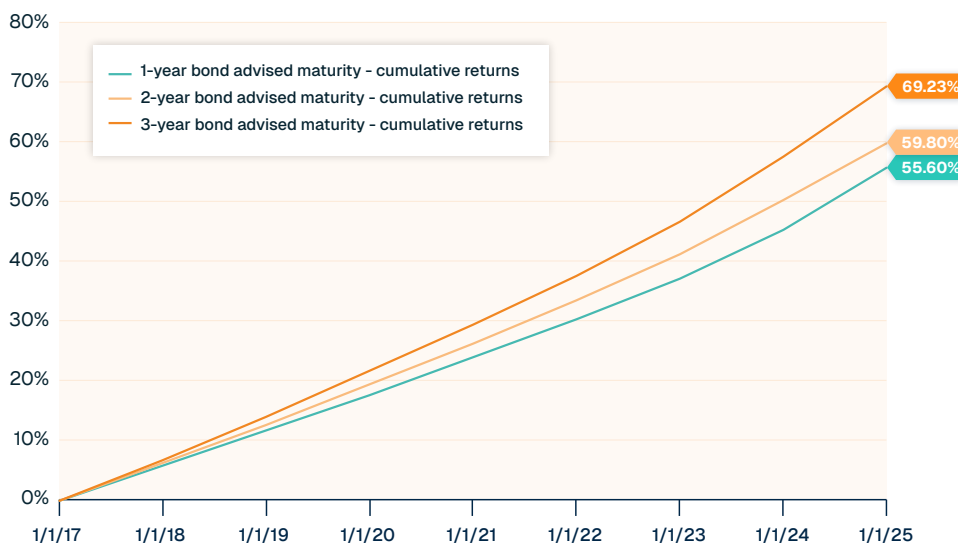

You could lose all of your money invested in this product. This is a high risk investment and is much riskier than a savings account.

ISA eligibility does not guarantee returns or protect you from losses.

Investments are for a fixed term during which your capital is tied up. There is no guarantee that the target return will be achieved and investors may get back less than the amount they invested.

For more information on investing in an ISA and understanding the risks connected with these, see the Income Service Information Memorandum. These are the rates available to investors accessing the service through their financial advisers. Different rates may be applicable for investors accessing the service directly through our website. Tax rules and reliefs depend on individual circumstances and are subject to change.

Income Service advised maturity historic returns

The graph shows the performance that would have been experienced by investors who invested at 1 January 2017 in:

- Advised maturity Income Service 1-year bonds, and systematically re-invested upon maturity expiry of prior bond maturity.
- Advised maturity Income Service 2-year bonds, and systematically re-invested upon maturity expiry of prior bond maturity.
- Advised maturity Income Service 3-year bonds, and systematically re-invested upon maturity expiry of prior bond maturity.

The above is provided for illustrative purpose only. Past performance should not be taken as a guide to future performance.

The Triple Point Income Service places capital at risk and returns are not guaranteed. FSCS protection does not apply to investments held in the Triple Point Income Service. Remember that investments are for a fixed term during which capital is tied up, and that past performance and forecasts are not a reliable indicator of future performance. Tax treatment depend on the individual circumstances of each client and is subject to change.
