Triple Point Estate Planning Service

Trading Summary Q2 2026

The Triple Point Estate Planning Service (TPEPS) is a straightforward investment solution that targets stable returns, long-term capital growth and Business Relief (BR) eligibility, aiming to provide individual investors with relief from inheritance tax after two years.[1]

The Triple Point Estate Planning Service gives investors the choice of two different but straightforward investment strategies, Generations and Navigator. Capital from investors is placed into one or more companies that primarily provide lending and leasing services to small and medium-sized enterprises (SMEs), corporates, and/or public sector organisations.

A Unique Strategy

A differentiated strategy, focused on lending and leasing, offering something different from the market.

20 Year Track Record

The Generations Strategy has delivered positive growth quarter on quarter for over 20 years.

£1.63bn

Triple Point funds under management in estate planning products.

100% Success Rate in BR Qualification

We are not aware of a single case where a claim for BR was not successful for those that held an investment through TPEPS for at least two years.

Experienced Team

Specialist Private Credit team of over 50 people.

Diversification

Both strategies offer access to businesses which are diversified over multiple contract terms and asset types.

7 days

Average number of working days taken to dispose of shares in the last 12 months.

£14.5m

Investments exited this quarter.

[1] Since April 2026, qualifying holdings in privately owned companies are eligible for a £2.5 million allowance providing 100% relief from inheritance tax. Any qualifying holdings over £2.5 million are eligible for 50% relief. Applicants should seek professional advice to understand how this could affect their inheritance tax planning.

Risk warning: The Triple Point Estate Planning Service places capital at risk. As with any investment, there is no guarantee that the target return will be achieved and investors may get back less than the amount they invested. Past performance and forecasts are not a reliable indicator of future performance. Tax treatment depends on the individual circumstances of each client and is subject to change. Tax relief depends on the companies we invest in maintaining BR-qualifying status. Investing in unquoted shares may carry higher risks than investments in quoted shares, such as reduced liquidity, meaning it could be more difficult to sell your investment.

Navigator Strategy

(To date, all funds raised for the Navigator Strategy have been invested in Navigator Trading Limited)

Navigator Trading Limited (NTL) provides an alternative source of finance to SMEs.

Performance and market commentary

Assets under management:	£764m
12 month rolling return:	2.04%

The 12-month rolling return at the end of the quarter was 2.04%, marginally down from 2.08% at 31 March 2026.

As reported in March, the decline below the target hurdle range was driven by a single loan impairment, where falling electric vehicle resale values created financial difficulty for the borrower. The recovery process remains ongoing, with the loan continuing to be managed through an orderly wind-down of the underlying security.

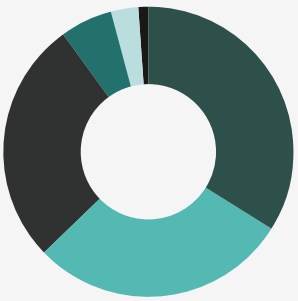
Whilst the 12-month rolling return continues to reflect the January dip; as that period falls out of the calculation, we would expect the 12-month rolling return to move back within the target range. This is illustrated by the first quarters return being 4.32%, on an annualised basis. NAV per share at 30 June 2026 stood at £1.7237, up from £1.7053 at 31 March 2026, indicating that the core portfolio continues to perform well. We expect the portfolio to continue the historical quarter-on-quarter NAV growth, assuming wider portfolio performance remains consistent.

The Property Development market remains challenging, with slower sales, higher costs and planning delays, and the team therefore remains selective when assessing new opportunities. The SME Debt Finance, Specialty Finance and Fund Finance teams continue to see a high volume of inbound requests for debt, with strong qualified pipelines expected to deployment over the coming quarters.

Targeting	Capital growth
Target Returns	4% to 5% per annum net of all Triple Point annual fees and corporation tax
Average Annualised Return (Since Inception)	4.3%
Underlying Strategy	Lending and leasing to a diverse range of small and medium sized businesses
Example Assets	• Event driven, M&A and growth financing (SME Debt Finance) • SME asset-backed finance (Specialty Finance) • Residential property (Property Development Finance)
Independent Directors	Two
Share Price	£1.72

Sector split

SME Debt Finance	34%
Specialty Finance	29%
Property Development Finance	27%
Infrastructure Finance	6%
Corporate	3%
Fund Finance	1%



The above sector split represents the current breakdown which may change over time and sectors not shown may be added.

Navigator Trading Limited performance breakdown

Share price return (as at 30/06/2026)					
3 month	6 month	12 month	3 year	5 year	10 year
1.1%	0.4%	2.0%	10.6%	19.8%	45.4%

Financial year return				
2025/26	2024/25	2023/24	2022/23	2021/22
2.1%	4.0%	4.1%	4.0%	4.1%

Risk warning: There is no guarantee that the target returns of 4-5% for the Navigator Strategy and 1.5-2.5% for the Generations Strategy will be achieved and investors may get back less than the amount they invested. Returns stated in this summary exclude initial and dealing charges. Past performance is not a guide to future performance and may not be repeated.

Triple Point.

Generations Strategy

(To date, all funds raised for the Generations Strategy have been invested in TP Leasing Limited)

TP Leasing Limited (TPLL) provides high value lending, leasing and infrastructure funding to corporates and public sector institutions.

Performance and market commentary

Assets under management:	**£666m**
12 month rolling return:	**2.01%**

The 12-month rolling return at the end of the quarter was 2.01%, down slightly from 2.13% at 31 March 2026. This reduction was in line with expectations and primarily reflected anticipated repayments across the portfolio, together with the pace of new business origination during the period, as capital was deployed selectively in line with current market opportunities and underwriting standards.

At the time of writing, financial markets remain volatile, reflecting renewed conflict in the Middle East and the recent change in UK Prime Minister, both of which continue to contribute to market uncertainty. Despite this backdrop, we expect the 12-month rolling return to remain within the target range over the next quarter, with no material change currently anticipated.

Targeting	Capital growth
Target Returns	1.5% to 2.5% per annum net of all Triple Point annual fees and corporation tax
